CASE STUDY

Hogarth's Hotels

Hogarth's are a historical yet forward-thinking hotels across two locations in the UK, Stone Manor and Solihull.

Having felt the effects of the pandemic Wireless Rooms helped them to meet the new hygiene standards that printed POS couldn't.

Wireless Rooms also helped to replace the phone system which was costing Hogarth's over £10k per year per site to maintain. These two factors alone made Wireless Rooms an easy choice as it provided a high ROI, plus provided staff with an easier way to manage guests and provided guests with a better experience.

"Thanks so much for getting the tablets in place – great feedback from guests today."

- Ellie Beattie, Marketing Manager

Going Wireless, Easy as 1-2-3

Connecting with your guests is quick and easy with Wireless Rooms. Our simple process means you can get started straight away, helping you concentrate on day-to-day hotel operations.

01. Update the Portal

Add your branding, start adding information, promotions, menus & more.

02. Plug in & Setup

In the room, plug in the dock and connect the tablet to your wireless network to update.

03. Add Staff & Launch!

Staff can login & start accessing a wealth of tools and begin connecting with your guests.

PAYMENT PACKAGES

Join the Wireless Revolution

To join the wireless revolution, we have setup 2 simple ways to pay, designed to give you options that suit your needs:

MOST POPULAR

All-In Subscription*

£25

£15 Software +
£10 Hardware Finance

per room / month

BEST VALUE

Hardware Upfront

£15 + £179

per room / month per tablet

All prices shown exclude 20% VAT. **All-In Subscription" price is based on a 24 month contract and a tablet value of £179. Tablet prices can fluctuate, and contract term can be adjusted to suit your needs. Once the contract has ended you will have the option to start a new contract to upgrade your hardware or continue with your current hardware and pay £15 per room / month for Wireless Rooms software. The hardware finance is provided by a third party. Price shown only as an estimate.
